## SUMMARY

Dedicated Front End Developer within almost 2 years of professional experience working on projects. Previously, I attended a bootcamp and transitioned my career from a tourism background, enriching me with skills in adaptation, strong teamwork, high work ethic, and creative thinking. I have honed my technical skills in HTML, CSS, JavaScript, TypeScript, and front-end frameworks such as React with server-side rendering using Next.js. I am enthusiastic about continuous learning and growth in a dynamic environment, contributing positively to the development of innovative products.

---
